EcoTENSIL®

FUTURE-FRIENDLY UTENSILS

The EcoTensil offers revolutionary new silky-smooth paperboard utensils that, with one quick fold, become the most sustainable & crowd pleasing utensils available.

Made from material similar to a coffee cup, EcoTensil addresses demand for sustainability, convenience, efficiency and safety. They are highly material efficient, economical to ship and compact to store.

- Award-winning **EcoTaster** tasting utensils are perfect for a few bites. They are more cost effective than any other compostable utensil, and are made from FSC certified renewable paper. Use **EcoTaster** anytime you would use a tasting spoon, PLUS **EcoTaster** can even replace costly full-sized utensils for sampling because it has an almost full-sized bowl.
- The **iScoops** are extra sturdy for sampling products like ice cream.
- Full-sized, longer lasting **EcoSpoons** are ideal for FULL servings such as for frozen yogurt shops, schools, events and other food service.

The EcoTaster can be custom printed, subject to a minimum quantity order.

So many benefits to this great new product line, why use anything else? Contact Plastico for a free sample!

EcoTaster Mini

EcoTaster Mid

The **EcoTaster** is the greenest product within the EcoTensil range. They are perfect for a few bites. They have a bigger bowl area than other tasters, so can replace costly full-sized utensils for demos. The **EcoTaster Mini** is great to use with or instead of portion pot/soufflé dish.

The **EcoTaster Mid**, has a 15% bigger bowl than the Mini. It is great for plating food directly, so can often replace the costly cup or cracker. The Mid also has a backstop for liquids.

- Great for sampling almost any bite-sized food.
- Use at retail for demos, delis, trade shows, events, kitchens, cooking schools.
- The **EcoTaster Mid** has a bigger bowl, like a spoon.
- Great for any sample that could be eaten with a plastic taster such as:
 - Rice and other grains...
 - Soup, chilli...
 - Yogurt, pudding...
 - Spreading butter, nutbutter...

eco•iScoop

The **iScoop** is extra sturdy for ice cream sampling. Makes passing a sample really easy (see above photo). Less expensive than any compostable and takes up less space than a plastic version.

- Perfect for ice creams or products with similar consistency, like:
 - Fudge,
 - Blue cheese,
 - Gelato

•ecoSpoon•

The **EcoSpoon** is our full sized and longer lasting tensil, very much like a soda cup. It stays strong after being left in food for hours. It takes 50-80% less space than a plastic or bioplastic tensil.

- **EcoSpoon** is perfect for full servings.
- Great for frozen yogurt, parfaits, hot oatmeal, chilli, deli salads and other food to-go!
- Long slim reach for deep parfait cup.
- Great for schools, fast food, delis, and anywhere spoonable food is served.
