Compostability &  
Food Safety Standards**

Plastico PLA straws are made from 100% renewable resources, offering you a biodegradable and compostable solution for your cold drink service.

Be kinder to the environment by using these EN13432:2000-12 European Standard certified straws. In an industrial composting site, our PLA straws break down in 12 weeks. After 6 months, 90% of the material will be composted.

## • Made from 100% renewable resources •

Product	Code	Description	Material	Capacity	Colours	Case Quantity
	398PLANABOX	PLA Straws (Dispenser Box)	PLA	L 200mm Ø 6mm	Natural	10x500
